The new 2021-2022 innovative class schedule will:

- Promote academic excellence and quality of the school's programming
- Focus on student wellness and homework load
- Less transition time allows for deeper and reflective learning, innovation, and intellectual curiosity
- Provide community time and learning opportunities on and off campus
- Enhance time for faculty and student collaboration

Highlights of the Middle School schedule:

- **Classes** – No more than three core classes per day (70 minutes each) with a vertical eight-day rotation
- **Homeroom** – Start of school with time to review the day, hear announcements, and connect with Advisors
- **Activity Block** – Daily time for reflection and creating meaningful relationships with self and others through Advisory, Chapel, clubs, councils, office hours, etc.
- **Wellness** - Focus on the needs of the adolescent from time-management skills and leadership training, to health class, to unstructured recess time

This schedule is an example of what a student's 8-day rotational school schedule might look like under our new, innovative scheduling. It is not an exact reflection of what a student's schedule will be. Students will receive their actual schedule at Baron Bazaar, our annual back-to-school event.
